

# 2010 SUMMER CHESS CAMPS

## The Winning Process

*Winning chess is a process, not a matter of haphazard luck.* Masters use a systematic process to win game after game, often against strong and experienced opponents. *You can, too!* This summer we're exploring the tools and methods of the winning process on the way to a deeper understanding of the game, and increased practical playing strength. Each camp will build around a basic model and reinforce the process taught in other camps. However, the specific content will be different in each camp, allowing students to broaden their arsenal of winning insights and techniques, while further mastering the fundamental process. Join us as we share a practical and powerful approach to winning chess. Because of our tiered teaching system, each camp is appropriate for all players who know the basic rules.

### Bethany Presbyterian Church

15505 NW Springville Road,  
Portland, OR 97229  
(Springville at Kaiser Road)

#### **THE MOST EXPERIENCED AND THE BEST...**

The Chess Odyssey camp program developed over 12 years and 106 camps, and features substantial instruction in a fun and exciting environment. Mornings are mostly devoted to group learning, small group coaching, specially designed learning exercises, and individual interaction with our coaches. Afternoons are spent refining skills and understanding in various kinds of formal and recreational play. We use a variety of diagnostic methods to divide campers into study/play groups based on their age, experience and skill level. Some of our students are state champions (we've trained 26 of them in the last 12 years); others are just figuring out how knights move. We treasure each and every one of them. Our twin goals for all our students are learning & laughter. Happy, excited kids having fun while learning a great game with their friends are what we are all about.
